

Department of Biochemistry & Molecular Biology

2018 Fall Seminar Series

Thursdays • 4:00 pm • 8th Floor Lecture Hall (8-314)

DATE	SPEAKER	TITLE
September 6	Zachary Connelly Graduate Assistant Biochemistry and Molecular Biology LSUHSC-Shreveport	The Pioneer Transcription Factor FOXA2 Promotes Prostate Cancer Bone Colonization
September 13	Josh Neman-Ebrahim, Ph.D. Assistant Professor of Neurological Surgery Keck School of Medicine University of Southern California	The Role of the Neural Niche in Brain Metastasis
September 20	Fengtian Wang Graduate Assistant Biochemistry & Molecular Biology LSUHSC-Shreveport	Alteration of AR Cistrome in Castration Resistant Prostate Cancer
October 4	Donald Dwyer, Ph.D. Professor, Departments of Psychiatry & Pharmacology, Toxicology and Neuroscience LSUHSC-Shreveport	To Be AND Not to Be – Insulin’s Answer to the Question
October 11	Hari Koul, Ph.D. Professor, Biochemistry and Molecular Biology LSUHSC-Shreveport	Role of Prostate Derived Ets Factor in Prostate Luminal Epithelial Cells
October 25	Jean Christopher Chamcheu, Ph.D. Assistant Professor, Pharmacology & Dermatology, College of Pharmacy, University of Louisiana Monroe	Targeting Caspase-14 and PI3K/Akt/mTOR by Natural Products for the Management of Psoriasis
November 1	Timothy C. Thompson, Ph.D. Professor and Director, Prostate Cancer Basic Science Research, Joan & Stanford Alexander Distinguished Chair in Prostate Cancer, Department of Genitourinary Medical Oncology, University of Texas MD Anderson Cancer Center	Novel Approaches to DNA Damage Response-targeting Therapy for Prostate Cancer
November 8	Brian C. Freeman, Ph.D. Professor, Department of Cell & Developmental Biology, University of Illinois	Molecular Chaperones Regulate the Chromatin Landscape. Is It Time to Move?
November 15	Olga Volpert, Ph.D. Associate Professor, Department of Cancer Biology, University of Texas MD Anderson Cancer Center	Regulation of Innate Immune Response to Cancer by Exosomes
November 29	John Vanchiere, M.D., Ph.D. Professor of Pediatrics, Chief of Pediatric Infectious Diseases, LSUHSC-Shreveport	Development of a Nonhuman Primate Model of Polyomavirus Disease
December 6	Chris Kevil, Ph.D. Vice Chancellor for Research, Dean, School of Graduate Studies, LSUHSC-Shreveport	Reactive Sulfur Species: A New Player in Cardiovascular Health and Disease
December 13	Kevin McCarthy, Ph.D. Professor, Cellular Biology and Anatomy LSUHSC-Shreveport	Heparan Sulfate: It Is Not the Glycosaminoglycan Your Mother Thought It Was
