*from the Chancellor's Office*

February 2, 2016

Dear Faculty, Staff and Students:

I am honored to be appointed as your interim chancellor and deeply committed to the success of the entire Health Sciences Center. It is very important to me personally, and I know that it is critical to the citizens of north Louisiana.

As Dr. John Marymont returns full time to his position as Chairman of Orthopedic Surgery, I would like to thank him for his thoughtful leadership of the medical school over the past nearly two years and congratulate him for all that was accomplished under his guidance.

Tomorrow LSU President F. King Alexander will be on campus to brief the medical school leadership team on many of the upcoming and exciting changes that are ahead. Mr. Victor Yick, who will serve as a strategic advisor, will also be on campus meeting with key members of the leadership team.

As more information becomes available and more details become evident, I will certainly update everyone accordingly. I appreciate your patience as we realign our Schools of Allied Health, Graduate Studies and Medicine toward achieving our vital missions of education, patient care and research.

Sincerely,

G. E. Ghali, MD DDS FACS FRCS (Ed)  
Interim Chancellor
